

Introduction to Agricultural Sciences

Supervised Agricultural Experience (SAE) Planning Page

Name _____ Date _____

A Supervised Agricultural Experience (SAE) is an opportunity to apply skills and learning outside the classroom. You will manage your own SAE; it could be a project such as building something to sell or raising animals, or it could be working for others involved in the industry of agriculture. Today we will begin thinking about the types of SAE's we are interested in doing.

The Three Parts of Agricultural Education:

Supervised Agricultural Experience:

Ownership/Entrepreneurship –	
Placement –	
Research –	
Exploratory –	

My Idea for an SAE /SAEs this year: _____

Why I chose this SAE: _____

The experience I have in this type of area: _____

Who will help guide me/advise me in carrying out this SAE? _____

Goals!

One **short term** goal for developing an SAE: _____

S? M? A? R? T?

One **long-term** goal for my SAE: _____

S? M? A? R? T?

Review last week's goals. Did you accomplish them? Why or why not? _____
